

US GRAIN® STORAGE SYSTEMS INC.

Big Bubba Cruise Control and Push Tractor

Sweep Tractor Features:

- Compact size allows for easy movement into a bin with an opening as small as 15" wide. This eliminates the need to remove bin sheets to install.
- Design allows for a maximum of one tractor weight with minimal wheel slippage resulting in effective clean out while avoiding tire replacement.
- Multiple adjustments to fit on any sweep.
- Can be moved to multiple bins or left inside.

Cruise Control Features:

- Automatically starts and stops the sweep auger push tractor, keeping Employees out of the bin and OSHA compliant.
- It will ramp up and down the push tractor limiting damage on equipment.
- One unit can run multiple push tractors.
- Can use with existing sweep auger power eliminating the need for addition electrical work.
- Settings for a second pass at a higher speed decreases bin clean up time.
